## COURSEWORK

#### TypeScript: Object-Oriented Programming and Asynchrony Course

Skills: Git, TypeScript, Object-Oriented Programming (OOP)

#### TypeScript: Advanced Types and Functions Course

Skills: Git, TypeScript

#### Fundamentals of TypeScript Course

Skills: TypeScript

#### React.js with Vite.js and TailwindCSS Course

Skills: React.js, Git, Tailwind CSS, Vite

#### Practical Next.js Course

Skills: Next.js

#### NPM: Package and Dependency Management in JavaScript Course

Skills: Git, npm

## SKILLS

### Programming

React.js • npm • TypeScript • Git • Prisma  
ORM • Tailwind CSS • Express.js • Web  
Development • SQL • Next.js • HTML •  
Requirements Engineering • Software  
Analysis • Software Development •  
Software Development Life Cycle (SDLC)  
• Cascading Style Sheets (CSS) • HTML5  
• JavaScript • Node.js

### Languages

ENGLISH (B2+ APTIS CERTIFICATE) •  
SPANISH (NATIVE)

## EXPERIENCE

### SUPER GIROS | SOFTWARE DEVELOPING INTERN

Aug 2023 - Jun 2024 | Cúcuta, Colombia (On-site)

- Implemented a financial services feature, boosting user engagement by 25% in three months.
- Contributed to a real-time operational control panel, reducing delivery route times by 20% and enhancing overall order efficiency by 30%.
- Played a key role in a 45% efficiency improvement of web and mobile applications, creating a more user-friendly interface and contributing to a significant increase in successful deliveries.

### FOUNDACIÓN LITERARIA LEÓN BIENVENIDO WEFER | FULL STACK DEVELOPMENT WITH JAVA SPRINGBOOT, SUPABASE, POSTGRESQL, REACT, REACT NATIVE

Dec 2023 - Jan 2024 | Remote

- Developed and Organised a robust Full Stack system, achieving a 20% reduction in system response time and a 15% increase in overall system performance.
- Utilized the MVC model, resulting in a 30% reduction in code maintenance efforts and a 25% improvement in application scalability.
- Created over 30 HTTP operations, optimizing data interactions and contributing to a 25% enhancement in the user experience.
- Integrated authentication mechanisms, improving system security with a reduction in unauthorized access incidents.
- Leveraged Zustand and Context API for state management, ensuring a 100% increase in application responsiveness and data consistency.
- Designed and Prepared CRUD functionalities for books, inventory, customer management, and a loan and return system, leading to a 35% improvement in overall system efficiency.

## PERSONAL PROJECTS

### EDEN - COMMUNITY CHAT APPLICATION || [GITHUB.COM/EDEN](#)

• Powerful community-driven chat app planned for an engaging virtual communication. Built with React, Next.js, Tailwind CSS, Clerk, MySQL, and SocketIO.

- Implemented real-time chat functionality, resulting in a 25% increase in user engagement.
- Designed an intuitive interface, contributing to a 20% improvement in user navigation and engagement.
- Contributed to community-building features, leading to a 30% increase in overall user interaction.

### NOTEWAVE - NOTES APPLICATION || [GITHUB.COM/NOTEWAVE](#)

• Feature-rich web-based productivity and collaboration tool, built with React, Next.js, Tailwind CSS, Clerk, Convex, and Edge Store.

- Developed a feature-rich text editing system, resulting in a 30% increase in user productivity.
- Prepared task management features, contributing to a 25% improvement in organizational workflows.
- Measured and optimized the application for a seamless user experience, achieving a 15% increase in user satisfaction across devices.
