WORK EXPERIENCE

Software Analyst • Super Giros

Aug 2023 → Jun 2024 Cúcuta, Colombia (On-site)

- Developed a new feature to showcase relevant financial services within our platform.
- Spearheaded the design and deployment of a real-time operational dashboard for managing delivery routes and customer orders, elevating the efficiency of our delivery operations.
- Led a redesign of our web and mobile app used by our staff, significantly improving the order placement process and enhancing the overall customer experience.
- Played a key role in the testing and development of a new financial services extension, connecting seamlessly with our systems to provide enhanced functionality for our users.

SOME PERSONAL PROJECTS

Notewave • Notewave (notewave-lake.vercel.app)

HTML TailwindCSS React Convex Next.js 13 Clerk
TypeScript Context API Clerk

- I designed and developed "Notewave," a digital note-taking platform with a focus on usability and real-time collaboration.
- I created a minimalist and user-friendly interface that allows users to efficiently create, edit, and share notes.
- I implemented real-time collaboration features, enabling multiple users to work on notes simultaneously, enhancing productivity and teamwork.
- I developed a mobile application that ensures an optimal user experience on mobile devices, expanding the reach and accessibility of Notewave.
- This project highlights my expertise in app development, user interface design, real-time collaboration, and mobile accessibility, delivering a seamless digital note-taking experience to users.

Bluebyte • Bluebyte | Shop (bluebyte-store.vercel.app)

HTML TailwindCSS React Sanity Next.js Stripe
JavaScript Context API Local Storage API React Custom Hooks

- Designed and developed a feature-rich e-commerce website using a diverse tech stack including HTML, CSS, TailwindCSS, JavaScript, React.js, React Hooks, Next.js, Sanity, and Stripe.
- Successfully implemented essential e-commerce functionalities, including a fully functional shopping cart, product quantity selector, and seamless payment processing through Stripe.
- Leveraged the power of React Hooks and Next.js for enhanced performance and smooth user experience.
- Utilized Sanity for efficient content management, ensuring dynamic content updates and a user-friendly admin interface.
- This project showcases my proficiency in web development and my ability to create fully functional and user-friendly e-commerce platforms.

Freelance • Fundación Literaria León Bienvenido Weffer
