WORK EXPERIENCE

Software Analyst • Super Giros

Aug 2023 → Jun 2024 Cúcuta, Colombia (On-site)

- Developed a new feature to showcase relevant financial services within our platform.
- Spearheaded the design and deployment of a real-time operational dashboard for managing delivery routes and customer orders, elevating the efficiency of our delivery operations.
- Led a redesign of our web and mobile app used by our staff, significantly improving the order placement process and enhancing the overall customer experience.
- Played a key role in the testing and development of a new financial services extension, connecting seamlessly with our systems to provide enhanced functionality for our users.

SOME PERSONAL PROJECTS

Notewave • [Notewave \(notewave-lake.vercel.app\)](https://notewave-lake.vercel.app)

HTML TailwindCSS React Convex Next.js 13 Clerk

TypeScript Context API Clerk

- I designed and developed "Notewave," a digital note-taking platform with a focus on usability and real-time collaboration.
- I created a minimalist and user-friendly interface that allows users to efficiently create, edit, and share notes.
- I implemented real-time collaboration features, enabling multiple users to work on notes simultaneously, enhancing productivity and teamwork.
- I developed a mobile application that ensures an optimal user experience on mobile devices, expanding the reach and accessibility of Notewave.
- This project highlights my expertise in app development, user interface design, real-time collaboration, and mobile accessibility, delivering a seamless digital note-taking experience to users.
